SALICYLIC  
ACID

ACETYL  
SALICYLIC  
ACID

METHYL  
SALICYLATE

## Pharma grade Ultra pure & white

**SA Pharma** is an active ingredient and pharma intermediate manufactured in multiple reacting sites according to cGMP, with an available CEP and a US FDA acceptance letter. SA Pharma meets the standards for a wide range of applications (squamolytic, keratolytic, exfoliating, antibacterial, antimycotic, astringent and anti-ageing) and thanks to a unique process, it is considered **the purest product** on the market along with **the best PSD**.

**SA Premium** is an **ultra pure ingredient** for **cosmetic formulations** (anti-acne and anti-ageing creams, exfoliating masks and lotions, shampoos...). SA Premium is the **finest grade** on the market particularly suitable to demanding formulations. It is also a high quality synthesis intermediate for the manufacture of **high quality perfumery ingredients**.

**SA Standard** is an excellent **curing accelerator** and highly efficient **polymer structure** modifier for epoxy resins in high performance industrial applications. SA Standard is a powerful cross linked, corrosion inhibitor, metal chelating agent and great Biocide properties (fungicide & pesticide).

- **SA Premium & Standard REACH registered**
- **CEP/COS: CEP 1993-008 (pharma grade only)**
- **SA Pharma GMP certified**
- **ISO 9001 certified**
- **ISO 14001 and OHSAS 18001 certified**
- **Kosher and Halal certified**

- ▣ No class I, II or III solvent
  - ▣ No metal catalyst or metal reagents
- used at any stage in the process

<b>FEMA N°</b>	3985
<b>REACH</b>	Registration # 01-2119486984-17-0000
<b>REGULATORY</b>	<ul style="list-style-type: none"><li>• Listed on European Flavouring substances</li><li>• Listed on the cosmetic regulation as allowed preservative</li></ul>
<b>INCI NAME</b>	Salicylic acid

## SALICYLIC ACID GRADES

### Pharma

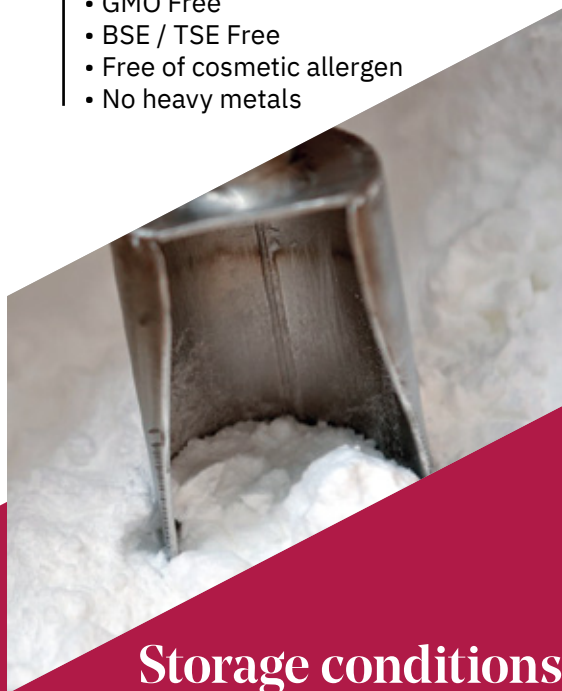

- Manufactured according to GMP (ICH Q7)
- Compliant with USP, Ph Eur, JSQI
- Purity higher than 99.0%
- Ultra low Impurities (PhBA, PiBA, Phenol)
- Sulfate content <0.05% (specific method)
- Kosher and Halal certified
- GMO Free
- BSE / TSE Free
- Free of cosmetic allergen
- No heavy metals

### Premium

- Purity higher than 99.5%
- Phenol content <0.02%
- Sulfate content <0.04% (specific method)
- Kosher and Halal certified
- Paraben Free
- Free of cosmetic allergen

### Standard

- Purity higher than 99%
- Sulfate <0.1% (specific method)
- No heavy metals
- White product

### Packaging:

- 25 kg paper bags
- big bags (from 400 to 1000 kg)

### Transport:

- INLAND International Legislation (RID-ADR) (not regulated)
- SEA FREIGHT (OMI) (not regulated)
- AIR FREIGHT (IATA) (not regulated)

### Storage conditions:

The product is stable under ICH accelerated conditions. Therefore, controlled conditions are not required for storage of salicylic acid in climatic zones I and II.

**Re-test date: 5 years**
